Together We Achieve

We have high aspirations for all our students. We encourage them to follow their dreams and achieve their goals.

Welcome

“ Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations ”
- Bob Beauprez

An academic institution plays a crucial role in nurturing and developing a unique talent in every child. It, in fact, enables them to blossom into a complete being by discovering the joy of learning. We, at Ankuram, believe that this can be achieved by providing children a safe and conducive environment to do their best in academics, sports, arts and cultural activities. In this institution, this guiding philosophy of providing children a holistic education has always been at the core of everything we do.

Every day all of our efforts are focused on making Ankuram Academy a happy school where teaching is pleasure, and learning is joy. At Ankuram, we prepare the children to identify their interests early on and help them to develop these interests into their passion. Here, the children learn to believe in themselves and keep interest in every aspect of life and nature. We encourage curiosity in every child and motivate them to be lifelong learners.

Ananda Bahadur Chand
Chairperson

Education for Life

Suman Poudel
Principal

“At Ankuram Academy, we provide a learning environment that inspires and motivates children, and encourages them to explore limitless possibilities in their quest for knowledge”

We impart a well-balanced, concept focused and research-oriented education through progressive curricular practices. The learner is at the center of everything we do, and reaps the opportunities for self-directed learning.

Our commitment to delivering complete education has continuously geared us for steady improvement through innovation and technology. Our strong coordination with management team, teachers, staff and parents together has helped us to explore the best resources and opportunities for learning.

Success for us is not only measured by tests, and results. We at Ankuram believe that the greatest part of our success lies in the smiling faces when they enter the school premises every day, and eventually step out into the bigger world with confidence, knowledge and compassion to create a progressive, just and happy society to live in.

Come and join us, and feel the difference.

Our Philosophy

Uniqueness of Child

Every child is a unique and lovely creation of God, and has personal experience of the world. Hence, each child needs to be encouraged to find his/her place in the world. For this reason, education should be interactive and experiential. The practical application of classroom knowledge is a key part of our education.

Education Par Excellence

Our rigorous scholastic programs support the students to bring out their potentials, and achieve the highest level of academic excellence.

Global Citizenship

We encourage our students to be patriotic citizens. At the time, we inspire them to serve the whole of humanity and prepare them to be good humans for the whole world.

Peace and Justice

We encourage each child to be an ambassador for peace and justice and inspire them to always work for righteousness.

Holistic Approach

We aim to develop in students a holistic approach by cultivating child's physical, emotional, moral, and psychological attributes.

Our Methodology

Ankuram Academy uses accelerated learning methodology using the following modern tools and techniques.

Smart Class

All of our classrooms consist of smart boards and audio-visual facilities having students provided with the access to the state-of-the-art learning technology.

*Multiple Intelligence**

After their admission in the school, each children will be scientifically tested using the modern dermatoglyphics test. Then we closely supervise them during the year letting them freely exercise the talent they contain. Howard Gardner the father of MI has proven that each child has a super unique blend of intelligence. Hence, we allow each child here to learn using their natural talent.

Mind Mapping

We use a powerful graphics technique which provides a universal key to unlock the potential of the brain. It is used to generate, visualize, structure and classify ideas. It is an aid to studying and organizing information, solving problems, making decisions.

Appreciate inquiry (AI)

It is an approach to behavioral change which focuses on strengths, rather than on weakness of a student. We practice this technique here as a co-evolutionary search for the best in people.

Vision

At Ankuram, we are committed to conveying holistic educational experience. Here, we celebrate the culture of excellence and values. We promote free, objective thinking in our students. We aim to produce responsible, creative global citizens dedicated to the progress of nature and society.

Mission

The School's mission is to provide a learning environment that encourages children to bring out the best in themselves and enables their all-round development through the joy of learning. We strive to ensure that every child in our care is empowered to make choices and encouraged to contribute to our community.

Personal Development Programs

Ankuram Academy believes in teaching life skills to students from a very early stage. For this reason, we regularly conduct various personal development programs like, Public Speaking and Communication Skills, Goals Setting, Time Management, Emotional Intelligence, Social and Party Etiquette, Grooming, etc. We also provide strong counseling services to help our students better cope up with emotional and social beings.

Celebrations

To promote national and international harmony, the school celebrates all major National and International Festivals and Days. These functions are observed to broaden students' world-view and help them adapt successfully in any environment.

Parents Involvement

Ankuram Academy encourages parents to visit school and meet the principal and teachers with prior appointment. For the parents, the school conducts parenting and other relevant trainings each year. Parents also participate in major school functions and programs.

Hostel Facilities*

To make students feel at home, spacious, ergonomically designed dormitories with attached bathrooms are built. The residential students are under the supervision of dedicated hostel wardens and caretakers. We provide well balanced and nutritious food and snacks. Different hostel activities like games and sports, swimming, hiking, etc. keep them active and refresh all the time. Special tuition and study hours are integral parts of our hostel life. Besides these, the students have also access to school computer and Internet facilities.
